Issues addressed and that are important to the Tucson community include Border/Immigration, Community, Consumer, Crime & Law Enforcement, Economy, Education, Environment, Health and Safety issues

ISSUE	PROGRAM	DATE	TIME	PARTICIPANTS	SUMMARY OF DISCUSSION
Border/Immigration	News 4 @ 10	1/1/10	10:12:14 to 10:14:19		Three California professors developed a cell phone tool. It uses GPS technology to help illegal immigrants cross the border safely. The developers are hoping for backing from Tucson's immigrant activist group "No More Deaths." But they're hesitant to help in what some are calling an "illegal application."
Border/Immigration	News 4 @ 10	1/18/10	10:11:45 to 10:13:37		According to the Centers for Disease Control, border communities have higher rates of diabetes, heart disease and obesity. The University of Arizona has a ground breaking project that could save lives. With 3.9M dollars to allocate, the U of A's Prevention Research Center will shape a model aimed to shape healthier lives along the border.
Border/Immigration	News 4 @ 10	1/25/10	10:12:56 to 10:14:39		Patrolling the border by most accounts is dangerous. Even on a good day, the threat of assault "high" and the weapon of choice...rocks. Between October and December of 2009, there were 141 attacks, most with rocks. A border patrol agent spoke about his near death by this impromptu weapon. And, the feds also spoke about what they are doing to stop the attacks.
Border/Immigration	News 4 @ 10	2/5/10	10:05:11 to 10:07:13		Dozens of incarcerated, illegal immigrants will be transferred from the Arizona Department of Corrections, in Tucson, to Immigration and Customs Enforcement, or ICE. This is all part of the Governor's plan to save cash, as Arizona struggles to tackle a 1.4B dollar deficit. So, the state is moving the responsibility to the feds. Arizona will save more than 4.5M dollars. There's also legislation in the making to toughen laws for illegal immigrants who return and commit a crime.
Border/Immigration	News 4 @ 6	2/19/10	6:02:28 to 6:04:23		The United States and Mexico have joined forces to battle drugs, and to protect the borders. U. S. Border Patrols are training Mexican Federal Agents to work with them on coordinating patrols. This will create a safer border environment for both sides of the border and also a border environment that will facilitate trade. The training is only going on in Southern Arizona but Border Patrol Officials said it could be expanded to the rest of the Southwest border.
Border/Immigration	News 4 @ 10	2/22/10	11:29:36 to 11:31:30		Precision Alignment and Brake said Border Patrol asked them to design the perfect safety tool for Border Patrol agents in Tucson, and around the country. They are working on a containment systems to hold their tools, and it is also a containment system to protect the agent. The guys at PAB are hoping for a deal because they said they've been working with Border Patrol on this project for the last year and a half.

ISSUE	PROGRAM	DATE	TIME	PARTICIPANTS	SUMMARY OF DISCUSSION
Border/ Immigration	News 4 @ 6	3/10/10	6:07:28 to 6:09:11		There is a new border checkpoint going up near I-19 and Tubac, a 5M dollar project. This checkpoint will have some added structural boosts, like a roof, things that the feds said are going to up the ante for enforcement. The new checkpoint won't just be good for the agents, they say its also good for all cars going through it because of an additional third lane. Even though some are for and against the checkpoint, both sides agree its better to be doing the construction at night than during the day.
Border/ Immigration	News 4 @ 10	3/18/10	10:01:44 to 10:02:49		On Tuesday, March 16th, the Feds decided to freeze funding for the Virtual Border Fence. And the report from the Government Accountability Office backed up that decision. So far, only 28 miles of the system is up and running in Arizona so the Feds will keep it going here. At this point, officials said stripping the cash here wouldn't make sense. Electronic Security Systems or SBI Nets, a network of sensors and cameras across the border what was supposed to cover most of the 2,000 miles the U.S. shares with Mexico is not really working, the costs have gone up and deadlines have been missed.
Border/ Immigration	News 4 @ 5	3/30/10	5:02:51 to 5:05:01		Security along the border is a top issue in the state. In Tucson, on March 30th, Governor Jan Brewer, again, demanded the Federal Government to more to secure our border.
Community	News 4 @ 5	2/24/10	5:12:59 to 5:15:06		A non-profit group called "American Border Patrol" not to be confused with the U.S. Border Patrol, is ramping up its efforts to show surveillance along the border can be done cheaper. It's using inexpensive trail cameras and aircraft equipped with thermal imaging to prove it's point. KVOA showed you how ABP's low-cost operation looks to improve border security.
Community	News 4 @ 10	1/3/10	10:00:11 to 10:02:18		Tucson City's Council Members were faced with the choice of raising taxes, or cutting public safety. The 2% Landlord Tax is one of many issues city leaders voted on 1/5. The City Manager proposed the 2% tax, calling it temporary until voters approve a property tax with funds designed to Public Safety.
Community	News 4 @ 5	1/4/10	5:14:33 to 5:16:23		Construction on I-19 near Chavez Siding Road delayed traffic. It was part of the 1.5M interim Border Patrol Check Point between Tubac and Amado. It was the busiest time of the year for the produce people hauling winter vegetables from Mexico to Safeway grocery stores. The delays could cause them 1/2 a day or a day depending upon the weather. The Fresh Produce Association of the Americans was concerned about safety. This is why the first plan to move traffic along I-19 was questioned, since then that plan was modified. Hopefully the delays will not be long, it could have an impact on the 2B produce industry.
Community	News 4 @ 5	1/5/10	9:59:58 to 10:02:17		The proposed landlord tax and cuts to police and fire are off the table. The ideas floated by the city manager was a no go with council members who want to see Plan B. With a debt of 32M, the cash has to come from somewhere. One idea is a 3.5% pay cut across the board for city employees, including police and fire. Also, steeper fees for city parks and rec, and program cuts.

ISSUE	PROGRAM	DATE	TIME	PARTICIPANTS	SUMMARY OF DISCUSSION
Community	News 4 @ 10	1/29/10	10:00:00 to 10:04:31		We had a week full of talks and addresses, nationally and locally, about the "state" of things. President Obama's State of the Union Address focused on primarily on the economy. Much of the same theme for "The State of the City Address" in Tucson. Mayor Bob Walkup laid out his plan to keep the city going in this recession. The mayor said we had to focus on "core services" like public safety and our streets. Also, he wants to sell assets the city no longer needs. Secondly, he wants to focus on the geographic core, like downtown development and Rio Nuevo. The mayor also suggested a public vote on changes to the city charter. He also would like a full-time mayor and council, and increased mayoral power.
Community	Impact	1/31/10	6-6:30a	Norma Battaglia with the Tucson Fire Department	Human Services Referral System is a relatively new system that helps people who call 911 multiple times a week for things that are not really emergencies. Norma explained how the firefighters put information into a database about the people calling and then different agencies come together to work with these people. It's not only good for the patients, but it's good for emergency responders too because it allows them to stay available for real emergency calls. This is important to the public because it's such a new system not very many people know about it. The firefighters do a lot of the work, but if Tucson residents have a loved one that might need help like this they can be proactive and look into it before something happens.
Community	One on One	1/31/10	6:30a-7a	Rick & Belinda Williams of Green Valley	Rick Williams of Green Valley is fighting pancreatic cancer, and they held a fundraiser on February 27th in Green Valley. If the Major League approves it, Spring Training could continue in Tucson next year. However, it might not be what you're used to. The goal is two Japanese teams playing 15 games with major league teams.
Community	News 4 @ 6	2/11/10	6:10:53 to 6:12:03		The feds phasing out the F-16 Fighter jet replacing it with the 5th generation F-35. Air Force, Marines, the Navy and a slew of US Allies will fly the new fighter jet. Now, they have to decide where to train the next generation pilots. Tucson is in the running, and that's bringing mixed reactions. Those in favor of Tucson Training, say it would bring 280M into our economy per year. Our weather, supporters say, perfect for year-round training. They also cited the proximity of the Goldwater Bombing range. The opposed, said noise will be an issue, many concerned the F-35 is too loud to operate in an urban area, as a result decrease home values. Also, opponents said there are plenty of other areas in Southern Arizona more suitable for the new jet.

Community	News 4 @ 4	2/25/10	4:03:42 to 4:05:07		February 22nd was Rodeo Week in Tucson, with the 85th Rodeo Parade that went off without a hitch. But this year, the route was shorter. The parade covered two miles of the south side instead of the two and a half miles of year's past. Because of city budget cuts, 100 police officers had to be taken off the streets meaning less officers for the parade route. The actual number of entries stayed about the same and organizers say they hope the shortened length is only temporary.

Crime & Law Enforcement	News 4 @ 10	1/14/10	10:05:05 to 10:05:50		State Attorney and the Federal Trade Commission have filed a joint lawsuit against Government Careers Incorporated. It is a Tucson based company than claims it can help you land government jobs for fees nearing a thousand dollars. Clients said they thought they were applying directly to the government when they answered the ads. They also said, Government Careers is misleading people about the availability of these jobs. Government Careers told News4, months ago, that it's policies and promises are clear in the contracts. The company said clients should pay more attention when they sign-up. The State Attorney estimates the company defrauded at least 10,000 people, nationwide, with 1,500 of them in Arizona.

Crime & Law Enforcement	News 4 @ 10	2/9/10	10:12:34 to 10:14:24		Tucson Police are handling minor traffic tickets differently, in court now. Every ticket through civil court is defended by just 3-designated officers. The officers that actually wrote the ticket are not in court, which could benefit you. Under the old system, if a TPD Officer wrote you a ticket, that officer would have to show up in court if you challenge it. TPD said that led to a lot of overtime, so much it cost the department a big chunk of change. But TPD said it's not all about the money, it's keeping more officers on the streets doing their jobs instead of sitting in court waiting for a hearing. Some lawyers say this could benefit some because the officer at the hearing wasn't there at the time of the traffic stop, he wasn't a witness to anything. Attorneys also said that this does not mean everyone can get out of a traffic ticket but it gives them a solid argument in both the hearing and the appeals process.
Crime & Law Enforcement	News 4 @ 10	2/10/10	10:12:44 to 10:14:56		Tucson Police has shared that "Kristi's Kids" has saved lives. Crime & Law Enforcement	News 4 @ 10	2/11/10	9:59:58 to 10:04:23		Tucson Police has a man in custody in connection to an abduction of a little girl in broad daylight. They gave credit to the public's quick reaction for the girl's safe return. The girl and witnesses positively ID'd the man, and not long after being taken into custody, the man confessed. At this time, the investigation is still on going, and police are very careful to say whether or not this is connected to the other previous abductions.
Crime & Law Enforcement	News 4 @ 10	2/17/10	10:46:26 to 10:48:41		Coming face to face with an intruders inside your house. Bad enough. But how would you feel if you called 911, and it took the police an hour to get to the scene. This happened to a Tucson man. And he shared his story with us because he doesn't want it to happen to other people. The intruder eventually left the home before the police arrived. Tucson Police Sergeant said that the 911 call came in during an especially busy period when officers were juggling as many as 40 calls in that district. And since the caller seemed out of danger, his call became a low priority. The Tucson man advised that something needs to be done so callers never have to wait as long as he did for help.
Crime & Law Enforcement	News 4 @ 6	2/18/10	6:02:42 to 6:04:27		88-CRIME is an important tool for law enforcement. It gives the public an anonymous way to give tips to solve crimes. And with the recent attempted abductions, the call center has stayed busy. News 4 showed how the 88-CRIME helps law enforcement.
Crime & Law Enforcement	News 4 @ 10	2/19/10	10:30:35 to 10:34:26		On February 5th, a 15-year old was walking home from Catalina High School, when a man grabbed her, and threw her into his pick-up truck. She fought tooth and nail, and eventually her attacker threw her out of his vehicle. On February 19th, Tucson Police said they got a person of interest in custody. Tucson Police Chief said they are confident the man they have in custody is responsible for the kidnapping, he was identified through DNA taken from the victim. The teen said she hasn't been able to have a normal life, even be around people since the ordeal. But now, she said she can own go on with her life.

Crime & Law Enforcement	News 4 @ 10	3/2/10	10:00:10 to 10:02:40		A team of Tucson Police Officers just wrapped a special operation in an area with violent crime. This area is midtown, a square mile with the boundaries to the East - Doolen and Fruitvale, to the West, Dodge and Flower. In the last 3-weeks, TPD said there's been as much crime in this area as there is in an entire year. The neighborhood association has been working with Tucson Police to bring property crime rates down but never has the level of violence been this bad. That's why they are thankful for this operation.

Health	News 4 @ 10	2/28/10	10:13:15 to 10:16:06		There's a lot of pressure on us to look younger so we can feel better about ourselves. Many people go to great lengths and expense to erase the lines on their skin. Others go to the Internet in search of products that claim to erase the years. But these on-line fixes can really cost you. One Tucson woman, shopped on-line, used the product and her neck turned red and raw from the product that could have caused infections and scarring. She had to get medical help to heal the damage. Dr. Comstock, a Dermatologist, said you might spend five times what you would have spent to have a treatment done properly, if you first choose to do it yourself.
Health	News 4 @ 4	3/1/10	4:47:33 to 4:51:03	Dr. Jody Comstock, Dermatologist	Dr. Jody Comstock, a Dermatologist, spoke about "Thermage." It is a procedure that tightens your skin without being invasive.
Health	News 4 @ 4	3/2/10	4:33:26 to 4:37:06	Maya Nahra, Registered Dietician from Sunflower Farmers Markets	The American diet is made up of processed, white, fat free, sugar free foods. When you consume foods with additives, preservatives and other ingredients made in laboratories, your body simply does not know what to do with them. When you eat whole, fresh, unprocessed foods, you are optimizing your health, slowing aging and reducing the risk of disease. Maya Nahra, a registered Dietician from SunFlower Farmer Market, spoke about a few basic principles to help us eat better.
